

IS-DG308P Series

8-port Gigabit unmanaged Layer 2 Industrial PoE Switch

The IS-DG308P Series full Gigabit unmanaged 8-port Ethernet switch with either 4 or 8 PoE IEEE 802.3af/at PoE ports provide easy to use plug-n-play applications; a full Gigabit network provides higher throughput than legacy Fast Ethernet network. The cost effective IS-DG308P Series unmanaged switches can provide power and transmit data directly through a single Ethernet cable, which is ideal for factory production line or embedded into machine system. The IS-DG308P Series unmanaged switches are especially good for Building automation, CCTV, ITS and security/safety related applications.
